Tübingen Neuroscience Alumni Meeting 2018

September 23 - 25
Alte Aula
On September 23 – 25, we will host our first Tübingen Neuroscience Alumni Meeting. The Meeting is being organised by the Graduate Training Centre of Neuroscience and the University of Tübingen’s Research Alumni Network TRACe, and funded by the DAAD. It will take place in the University’s historic Alte Aula.

In five thematic sessions from Sunday, September 23, to Tuesday, September 25, the Tübingen neuroscience alumni currently employed in research, in a clinical position, or in industry all over the world will present their work and projects, talk about their experiences and discuss career paths as well as ongoing and newfound collaborations. Open discussion rounds will afford opportunities for you (and for researchers as well as students in neuroscience) to engage with our former colleagues.

Tuesday, September 25, will see an evening lecture by alumnus Prof. Dr. Kai-Markus Müller on the topic of ‘Neuromarketing’, starting at 7.00 p.m. The venue will be the University of Tübingen’s Audimax. The lecture will be open to the public.

Join us for three exciting days of meeting up! reconnect – recollect – rediscover – revitalise
